

Dear All the Customers,

Notice of specification changes of Carriers for Large Optical Rails (CAA-40L)

Thank you for your constant patronage.

This is to notify that there will be changes in specifications on Carriers for Large Optical Rails (CAA-40L) for the purpose of product improvement. M3 hole of the current model was designed to mount the magnet base. This time, the M3 hole pattern has changed to enable the mounting of 40mm size manual stages.

Please refer to below of changes in specifications.

1. Part number changes Current Part Number: **CAA-40L** ⇒ New Part Number: **CAA-40LN**

2. Current Part Number (CAA-40L) This will be discontinued when stock items are sold out.

※If you would like to purchase current model, please contact to International Sales Division.

For your information, the price will not be changed.

If you have any questions, please feel free to contact our International Sales Division.

Thank you for your continued support.

	Current Model	New Model
Part Number	CAA-40L	CAA-40LN
Changes	3 places x M3 (Mounting hole for the Magnet base)	12 places x M3
