

Dear Valued Customers

Notice of Discontinuation of Aluminum Ball Slide Stages (TBM)

Thank you very much for your continued patronage.

Please be advised that we are terminating the production and sales of Aluminum Ball Slide Stages (TBM) as of Feb., 23, 2015. They will be replaced by Aluminum Stages (TADC) and Aluminum Crossed Roller Slide Stages (TAM). For details, please refer to the following list.

Some TBM can still be purchased after discontinuation if there is remaining inventory. Please contact our sales representatives if you have any questions. We will continue to provide Z axis Aluminum Ball Slide Stages such as TBM-403, TBM-403FP, TBM-603, TBM-603FP as usual.

We kindly ask customers who have repeatedly purchased and already reviewed to use TBM to contact us separately. Please contact our sales representatives and/or international@sigma-koki.com

We appreciate your kind understanding and constant support. Please do not hesitate to contact us if you have any questions.

Sincerely

※1 The material of TSD-25 series is iron and its surface finish is super black chrome.

◦ Both the TADC series and TAM series are thinner than the TBM series. Height adjustments require customized spaces.

◦ Please contact our sales representatives if none of the abovementioned replacements are suitable, as a combination of products listed in our catalog may provide an alternative replacement solution.

The End
